About ASAE

ASAE represents more than 21,000 association executives and industry partners representing more than 9,300 organizations. Our members manage leading trade associations, individual membership societies and voluntary organizations across the United States and in nearly 50 countries around the world.

COMPREHENSIVE CRISIS MANAGEMENT AND FRAUD PROTECTION FOR NETWORK AND DATA SECURITY RISKS

Cyber threats are constantly evolving and any organization that stores, maintains or controls healthcare, financial or business confidential information is at risk. A breach of network or data security can result in significant costs to comply with state notification requirements, respond to regulatory actions and defend liability claims.

Available as additional coverage from AXIS Insurance, our crisis management and fraud prevention services are designed to protect associations and nonprofits from an enterprise security event, and they are the only insurance breach response product endorsed by ASAE.

Reimbursement or Pay-On-Behalf Options

- The **reimbursement** coverage format gives insureds the flexibility to choose their own service providers. AXIS reimburses the insured's expenses for the covered services.
- The **pay-on-behalf** coverage format leverages AXIS' experience, advice, and relationships with vendors having expertise in the delivery of breach response services. An AXIS PRO® preferred vendor delivers covered services direct to policyholders. AXIS pays the costs of these services to the vendor on your behalf.
